

Grade: Social Studies 7

Mastery Check 2

Benchmark#: G.7.5.1

State Language:

Identifies ways in which technologies have modified the physical environment of various world cultures.

Student Friendly Language:

I can identify the ways in which technologies have modified the physical environment of various world cultures (e.g., dams, levees, aqueducts, irrigation, roads, bridges, plows).

Concept (Students will know):

Define: levees, aqueducts, irrigation, plows, dams, bridges
Understand how technology impacts world cultures

Skills (Students will do):

Use context clues to gain understanding of various technologies impacting environments

Topics:

Geography

DOK Level:

2

Big Ideas:

Investigate how world cultures are impacted by technology

Essential Questions:

How do dams impact where people live?

The invention of the plow led to what environmental impact?

Given a current problem, identify the appropriate human technology to solve the issue.
